

“Remember”

Meaning of Civil Air Defense Warning

Please remember the meaning of the civil air defense warning and listen carefully.

When an enemy attack is expected

Preliminary warning is issued via voice announcements.

When an attack is imminent or under attack

an air raid warning or nuclear warning is issued with a one-minute undulating siren.

When a Chemical, Biological or Radiological(CBR) Attack is expected or you are under attack

a CBR Warning is issued via voice announcements.

How do you find it?

Search for a Shelter.

Click on the nearest Shelter.

Check location with Directions.

2 PM: Evacuate to the nearest shelter and listen to the radio for 15 minutes

Vehicles driving in partially controlled sections (5 minutes) should follow police instructions to stop on the right side of the road and listen to the radio.

2:15 PM: Preliminary warning alert! The road will be open to traffic, but please remain alert.

2:20 PM: Alert lifting! Return to your usual activities.

In everyday life
Prepare thoroughly.

Once the air raid warning is issued,
Evacuate safely.

When the air raid stops and it's quiet,
Listen to government announcements.

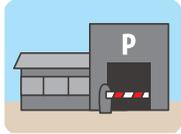

Evacuation shelter locations

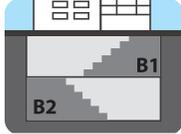

Know the nearest and safest government-designated shelter.

Subway station

Underground parking lot

Basement of a large building

Shelter in place during a chemical weapons attack

Non-contaminated areas and elevated indoor areas that can be sealed off from outside air

Emergency supplies

Packing a Go Bag

Know your shelter in advance and prepare a Go Bag.

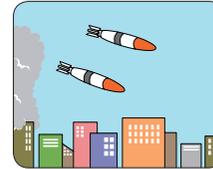

Bottled water, snacks, flashlight, first aid supplies, radio (batteries), toilet paper (wet tissue), raincoat, blanket, gas mask, rubber gloves, boots, plastic bag, etc

How to evacuate in the event of a missile, aircraft, or other air attack

Vacant lot nearby

Take the fire escape instead of the elevator.

While driving

Stop on the right side of the road, evacuate, and listen to the radio.

How to evacuate in case of a nuclear weapons attack

How to evacuate Immediately evacuate to underground facilities like shelters, subway stations or inside a concrete building without windows.

If a nuclear bomb goes off Lie face down in the opposite direction, with your stomach not touching the ground, your mouth open and your eyes and ears covered.

After a nuclear explosion

Avoid radiation and fallout

How to evacuate in the event of a chemical weapons attack

How to evacuate Protect your respiratory system with a respirator, mask, or other device and immediately evacuate to a higher area of the room that can block outside air.

Precautions

- Avoid exposure to contaminated air.
- Seal doors, turn off air conditioners and ventilators.
- Wash skin exposed to contamination with running water for at least 15 minutes.

When the air raid stops,

Follow the government guidance.

Listen to radio and broadcasting. Don't be swayed by rumors.

Stay with your family and neighbors.

Explain the situation to children and the elderly so they do not feel anxious.

Let's get through this together.

Hoarding daily necessities

Blood donation
